

## Locating Items in a Paragraph (Practice)

Read over the following paragraph which brings together ideas on plagiarism from two different authors – McLean and Horkoff.

- A. Locate all the examples of attribution language.
- B. Locate all the examples of in-text citation.
- C. Locate the direct quotation.
- D. Locate the one phrase in the paragraph that represents the writer's own voice.

Paragraph:

Writers who plagiarize accidentally do so because they haven't been taught how to cite sources (McLean, 2012). In contrast, according to Horkoff (2015), writers who plagiarize other work on purpose do so mostly out of desperation. She goes on to argue that "intentional" plagiarism happens as writers leave work to the last minute or do not fully understand a writing task. (p. 316).
